REASONS FOR ALLOWANCE

1. Claims 1, 4, 6-7,13-21 & 25-35 are allowed
2. The following is an examiner's statement of reasons for allowance:
3. Regarding claims 1, 7 & 13 the claims explicitly require that a magnitude of an amplified signal determines the gain of the analog signal that is amplified. Furthermore the claims explicitly require a plurality of most significant bits so that the first of said bits indicates the exceeding of a first saturation threshold or a second saturation threshold. These bits are derived from direct connection to the analog to digital converter and are utilized in directly controlling the gain.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments, see Remarks pages 8-11, filed 9/30/2008, with respect to claims 1, 4, 6-7,13-21 & 25-35 have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
